

I have been an XM listener for about 1 year. The service is clean,not junky like other braodcast. I would rather have access to XM that the freebies available on AM& FM broadcasting.I have 2 teenagers,we can listen for hours with out nasty Radio Shows and Junk advertising. Since I listen to XM exclusively I need access to traffic and weather. Please do not let big business win and deprive XM radio of the chance to be a contender in the broadcast arena by limiting what they can braodcast.Thank you LCDickie
